DESIGN FABRIZIO BIANCHETTI

La serie Ginevra fonda il proprio carattere sulla capacità di far coesistere due materiali. Il gambo in cromo lucido può essere abbinato ad una impugnatura in cromo satinato in acciaio inox o alle impugnature in PMMA sabbiate nei colori arancio sole, verde acqua, e blu zenith, che forniscono a Ginevra una soluzione allegra e ricca di personalità.

The characteristic of the Ginevra series is based on the co-existence of two materials. The polished chrome shaft can be matched with a satin chrome handle or a stainless steel handle or with a handle made of sand-blasted PMMA in the colours of sun orange, sea green and zenith blue, which make Ginevra look lively full of personality.
